EXPERIENCE

React js Developer

Oct 2022 – Present

Ideofuzion Pvt Ltd, Bahria Phase 4 Rawalpindi

Reviewing requirements, implementing SPAs with React.js, Next.js, Redux, enhancing UX, performance. Debugging, troubleshooting interfaces, tracking, and optimizing frontend efficiency. Testing, issue resolution pre-deployment ensured production-ready code.

Front-end Developer

Jul 2022 – Sep 2022

Techozon Software House, Gulberg Green Islamabad

Designing and developing frontend interfaces with HTML, CSS, JavaScript, and React.js. Collaborating with experienced developers, designers, and project managers to implement frontend architecture and enhance user interface concepts, fostering learning and best practices.

PROJECTS

Tote

Jul 2023 – Apr 2024

thetote.io

- Played a key role in the development of the Tote eCommerce platform, which comprised three distinct sites for users, admins, and merchants.
- Worked from the initial design phase, ensuring pixel-perfect implementation of the UI according to Figma designs.
- Integrated payment methods, including ALA and OPN token, enabling seamless transactions facilitated through the Alacrity wallet.
- Contributed to user, admin, and merchant site functionalities, ensuring smooth operations through close collaboration with team members.
- Resolve UI/func bugs, leveraging frontend tech for responsive, appealing interfaces, enhancing platform quality, usability, performance.

KwikTrust

Jan 2023 – Jun 2023

kwiktrust.com

- Contributed as a Frontend Developer to the development of KwikTrust, a File Validation System built on Hyperledger Fabric.
- Demonstrated proficiency in frontend technologies and frameworks, including HTML, CSS, JavaScript, and React.js, to create responsive and interactive UI components.
- Played a pivotal role in integrating APIs into the system, facilitating seamless communication between the frontend and backend components.
- Designed and developed the user interface (UI) for the KwikTrust Web Application, ensuring an intuitive and user-friendly experience for uploading files and accessing validation records.
- Ensured the integrity and tamper-proof nature of validation records by leveraging Hyperledger Fabric's blockchain technology.

Gamesfi

Nov 2022 – Jan 2023

gamesfi.live

- Developed and maintained user interfaces using React.js for the Gamesfi project, a play-to-earn game launched in January 2022.
- Implemented redeem features allowing users to exchange their scores for various cryptocurrencies, including BTC, ETH, SOL, SHIB, BNB, and facilitated cash-out options through Binance P2P and Coinbase USD formats.
- Played a key role in project development, from initial UI design to feature implementation and bug resolution post-production.
- Collaborated closely with cross-functional teams, including designers and backend developers, to

ensure seamless integration of features and optimal user experience.

- Demonstrated problem-solving abilities by identifying and resolving bugs efficiently, contributing to the project's success and user satisfaction.

Shetyle

Jul 2022 – Sep 2022

shetyle.com

- Designed user interface for Shetyle eCommerce platform, focusing on fashion products including dresses, shoes, bags, and accessories.
- Identified and resolved UI bugs during internship period, contributing to improved user experience.
- Gained practical experience in frontend development methodologies and practices.
