PROJECT EXPERIENCE

Pentagon website (BCSH)

<https://besh.xyz/>

Next.js developer

Nov 2024 - Jan 2025

- **UI Design for NFT Minting:** Designed and implemented the user interface for the Pentagon Website's pixel project, enabling users to seamlessly mint and purchase CPentester NFTs.
- **User-Friendly Experience:** Focused on creating an intuitive and engaging experience, making the NFT minting process straightforward and accessible for all users.
- **Smooth Token Interactions:** Ensured smooth interactions with token-related functionalities, including wallet integration and transaction confirmation, enhancing user satisfaction and engagement.

Pentagon wallet (Fiveswap)

<https://pentaswap.io/>

React.js developer

Jul 2024 - Dec 2024

- **Digital Wallet Development:** Contributed to the development of a digital wallet and website, ensuring secure functionalities for managing digital assets and transactions.
- **User-Friendly Interface and DeFi Features:** Built intuitive interfaces for seamless user experiences. Implemented DeFi functionalities, including adding/removing liquidity and swapping digital assets, enhancing user engagement.
- **Security and Performance Optimization:** Focused on secure transaction handling and optimized performance. Collaborated with the team to ensure reliable and efficient digital asset management.

Ideofuzion Projects Portfolio

<https://ideofuzion.com/>

React.js developer

Jun 2024 - Aug 2024

- **Migration to React.js:** Converted the company's portfolio website from WordPress to React.js, ensuring a professional and polished presentation to showcase client projects and company capabilities.
- **UI/UX Enhancement:** Enhanced the user experience with a responsive and visually appealing layout, leveraging React's component-based architecture to highlight the company's strengths and services effectively.
- **Dynamic Content Management:** Implemented dynamic content updates, maintaining accuracy and relevance. Collaborated with team members to ensure consistent branding and streamlined performance with React's efficient rendering.

Tote

React js Developer

Mar 2023 - Aug 2023

- **UI Development and Design Implementation:** Played a key role in developing the Tote eCommerce platform, consisting of user, admin, and merchant sites. Ensured pixel-perfect UI implementation based on Figma designs.
- **Payment Integration:** Integrated payment methods, including ALA and OPN tokens, enabling seamless transactions via the Alacrity wallet, enhancing user convenience.
- **Collaboration and Bug Resolution:** Contributed to site functionalities and resolved UI/functional bugs, working closely with team members. Leveraged frontend technologies to create responsive, appealing interfaces, improving platform quality and performance.

KwikSign

<https://app.kwiksign.io/>

Angular js Developer

Jan 2023 - Mar 2025

- **Frontend Development for KwikTrust:** Contributed as a Frontend Developer to KwikTrust, a File Validation System built on Hyperledger Fabric. Utilized HTML, CSS, JavaScript, and React.js to create responsive and interactive UI components.
- **API Integration and UI Design:** Played a key role in integrating APIs, enabling seamless communication between frontend and backend components. Designed and developed an intuitive user interface for file uploads and validation record access.
- **Blockchain Security Implementation:** Ensured the integrity and tamper-proof nature of validation records by leveraging Hyperledger Fabric's blockchain technology, enhancing system security.

Gamesfi

<https://www.gamesfi.live/>

React js Developer

Nov 2022 - Jan 2023

- **Front-End Development:** Developed and maintained user interfaces using React.js for the Gamesfi project, a play-to-earn game launched in January 2022. Ensured a responsive and engaging user experience.
- **Redeem and Cash-Out Features:** Implemented redeem functionalities, allowing users to exchange scores for cryptocurrencies like BTC, ETH, SOL, SHIB, and BNB. Enabled cash-out options through Binance P2P and Coinbase USD formats, enhancing user engagement.
- **Collaboration and Bug Resolution:** Collaborated with designers and backend developers for seamless feature integration. Efficiently resolved bugs, contributing to the project's success and improved user satisfaction.

Shetyle

<https://shetyle.com/>

Front end developer

Jul 2022 - Sep 2022

- **UI Development:** Ensured pixel-perfect UI implementation for the Tote eCommerce platform's user, admin, and merchant sites using Figma designs.
- **Payment Integration:** Enabled seamless transactions with ALA and OPN tokens through the Alacrity wallet.
- **Collaboration and Bug Fixes:** Resolved UI/functional bugs and enhanced responsiveness, working closely with team members.
