PROJECTS

AFA Exchange
AFA Exchange is an investment company specialising in cryptocurrencies and developing applications for financial markets. In short, they give advice on buying crypto.

KwikTrust
Platform allows for easy, self-certified and third-party validation of files, with the results stored securely on a blockchain, creating an irrefutable record of activity. The KwikTrust solution is faster, simpler, more secure and less expensive than competitors

Tidal
Insure assets across chains with an AMM powered options-futures liquidity bridge

Secret Versa
Behind our ordinary lives lies the SecretVerse, A universe where wondrous worlds like Dune and Middle Earth exist, a universe where technology exceeds imagination, where heroes meet us through portals in time and space. The SecretVerse is a 3-stage NFT project that celebrates our internal hero, our infinite dreams, our potential to grow. It starts with a collection of 10,000 unique personal Vaults locked as ERC-721 tokens onto the Blockchain and hosted on IPFS (take a look).
